

SOCIETY FOR BRAIN MAPPING & THERAPEUTICS (SBMT)

BREAKING THE BOUNDARIES OF SCIENCE, TECHNOLOGY, ART, MEDICINE AND HEALTHCARE POLICY

December 2, 2011

Dear Colleagues

It is our great pleasure to invite you to renew your membership or to become a new member of the Society for Brain Mapping and Therapeutics (SBMT).

SBMT is a non-profit multi-disciplinary medical society formed to improve health care by recognizing and promoting advances in neuroscience and technology that support the development of novel diagnostic and therapeutic agents and devices related to neurological disorders. The Society achieves its mission through the multidisciplinary collaborations of scientists and clinicians in diverse neuroscience-related fields, including neurosurgery, neurology, neuroradiology, cognitive neuroscience and neuroengineering, with government and non-government agencies. Our organization will continue to thrive based on the strong interface between our basic and clinical scientific communities with the world's organizations and stakeholders. Through these partnerships, we aim to promote the translation of new technologies into advances in medical diagnostic and therapeutic options.

The Society is holding its **9th Annual World Congress in Toronto, Ontario, Canada, from June 2-4, 2012** to further its educational mission, highlight scientific discoveries and discuss research priorities. This is a great opportunity for you to meet with the funding agencies, network, publish, present, and meet industry leaders and investors who may be interested in collaborating with you and taking your research to different level. Opportunities will also be available to train yourself in the various areas of interest to you through our hands on courses and workshops.

We look forward to renewing our relationship with you or welcoming you as a new member of the SBMT in June of 2012 in Toronto. This Congress provides a venue for scientists across the board including neuroscientists to present peer-reviewed talks and posters. Manuscripts based on presented work are prioritized when submitted for publication in the Society's open access journal: the PLoS One NeuroMapping and Therapeutics (NMT) Collection.

The Congress will also feature workshops, webinars, hands-on courses, and will encourage networking among professionals across varied scientific and medical disciplines and inspire discussions with government and non-profit and non-governmental granting agencies. Your membership reduces your registration fees to attend the 9th Annual World Congress. We encourage your participation in this in-depth scientific event. www.worldbrainmapping.org

Please feel free to contact us by email if you have questions about membership in the SBMT, submitting an abstract for presentation, or about participation in the upcoming Congress in Toronto. We look forward to seeing you next June in Toronto.

Sincerely,

John D. Heiss, M.D.

John D. Heiss, M.D.
Co-chair Membership Committee

Board of Directors:

A. Aria Tzika, Director of the NMR Surgical Laboratory, MGH and Shriners Burns Institute, Harvard Medical School, MA, USA
Antonio A.F. De Salles, Professor of Neurosurgery, Head of Stereotactic Radiosurgery, Dept. of Neurosurgery, UCLA School of Medicine, CA, USA
Babak Kateb, Chairman of the Board/CEO, Scientific Director of SBMT & Brain Mapping Foundation, Senior Editor, PLoSOne NeuroMapping & Therapeutics, Research Scientists, Dept. of Neurosurgery Cedars Sinai Medical Center, CA, USA
Benjamin Burt, Director of Orbital & Oculoplastic Surgery Paul L. Foster School of Medicine Texas, Tech University, Texas, USA
David Moore, Associate Professor of vascular Neurology, Tulane University School of Medicine Visiting Scientists, MIT, MA, USA
Farzad Massoudi, Assistant Clinical Professor of Neurosurgery, UCLA School of Medicine, CA, USA
Gary K. Steinberg, Bernard and Ronni Lacroute-William Randolph Hearst Professor of Neurosurgery & the Neurosciences Director, Stanford Institute for Neuro-Innovation and Translational Neurosciences Chairman, Dept. of Neurosurgery, Stanford University School of Medicine, CA, USA
J. Wesson Ashford, Director, California-War Related Illness & Clinical Professor, Dept. of Psychiatry and Behavioral Sciences, Stanford University School of Medicine, CA, USA
Jay J. Pillai, Director of Functional MRI, Neuroradiology Division, The Russell H. Morgan Dept. of Radiology & Radiological Science, Johns Hopkins University, School of Medicine, MD, USA
John Yu, Professor and Vice-Chair, Dept. of Neurosurgery, Cedars-Sinai Medical Center, CA, USA
John Peter Gruen, Associate Professor of Neurosurgery University of Southern California USC- Keck School of Medicine, CA, USA
John Heiss, Head of Clinical Unit Surgical Neurology Branch, NINDS/NIH, Bethesda, MD, USA
Krystof Bankiewicz, Prof. of Neurosurgery and Neurology Kinetics Foundation Chair in Translational Research, UCSF, CA, USA
Martin Pera, Professor and foundation director of The Eli and Edythe Broad Center for Regenerative Medicine and Stem Cell Research, USC, CA, USA
Massimo S. Fiandaca, Associate Research Scientist Bankiewicz Lab., Dept. of Neurosurgery UCSF, CA, USA
Michael Y. Chen, Assistant Professor of Neurosurgery, Section head, Malignant Brain Tumor-Program City of Hope national Medical Center, CA, USA
Michael J. Roy, Colonel, Medical Corps, U.S. Army Director, Division of Military Internal Medicine Professor of Medicine Uniformed Services, University of the Health Sciences, MD, USA
Michael Lim, Assistant Prof. of Neurosurgery Dept. of Neurosurgery, Institute for NanoBiotechnology Director of the Brain Tumor Immunotherapy Program Director of the Metastatic Brain Tumor Program Johns Hopkins University School of Medicine, MD, USA
Michele R. Aizenberg, Assistant Prof. of Neurosurgery, Director, Brain and Spine Cancer Center, University of Nebraska Medical Center, NE, USA
Michel S. Berger, Chairman, Dept. of Neurosurgery Kathleen M. Plant Distinguished Professor, Director, Brain Tumor Surgery Program, Director, Neurosurgical Research Centers, Brain Tumor Research Center, UCSF School of Medicine, CA, USA
Neal Prakash, Associate Professor of Neurology and Director of Optical Imaging, City of Hope Cancer Center, California, USA
Stephan Erberich, Assistant professor of Biomedical Engineering, USC School of Engineering, Director Biomedical Imaging and Informatics, Radiology, CHLA, Keck School of Medicine, CA, USA
Shouleh Nikzad, Lead, Advanced Detector Array & Nanoscience Group, Principal Member of Staff, Lead, Strategic Initiative, Gigapixel FPAs NASA/JPL, California Institute of Technology, Visiting Research-Associate Prof. of Neurosurgery, USC of Medicine, USA
Sujit S. Prabhu, Associate Professor, Dept. of Neurosurgery, The University of Texas MD Anderson, Adjunct Associate Professor, Dept. of Neurosurgery, Division of Surgery, Baylor College of Medicine, Houston, TX, USA
Vicky Yamamoto, CIRM Fellow, Dept. of Head & Neck Surgery and Otolaryngology, USC-Keck School Of Medicine, CA, USA
Warren Grundfest, Prof. of Bioengineering & EE, Professor of Surgery, UCLA School of Medicine, CA, USA
