ABOUT SBMT

The Society for Brain Mapping and Therapeutics (SBMT) was founded in 2004 as the International Brain Mapping & Intra-Operative Surgical Planning Society (IBMISPS). The name reflected the organization's international scope and its commitment to advancing both clinical and basic neuroscience through brain mapping, image-guided surgery, and therapeutic innovation.

SBMT promotes policies that support the rapid, safe, and cost-effective translation of emerging technologies and therapies into clinical neuroscience, including advancements in brain, spine, and mental health care.

SBMT MISSION

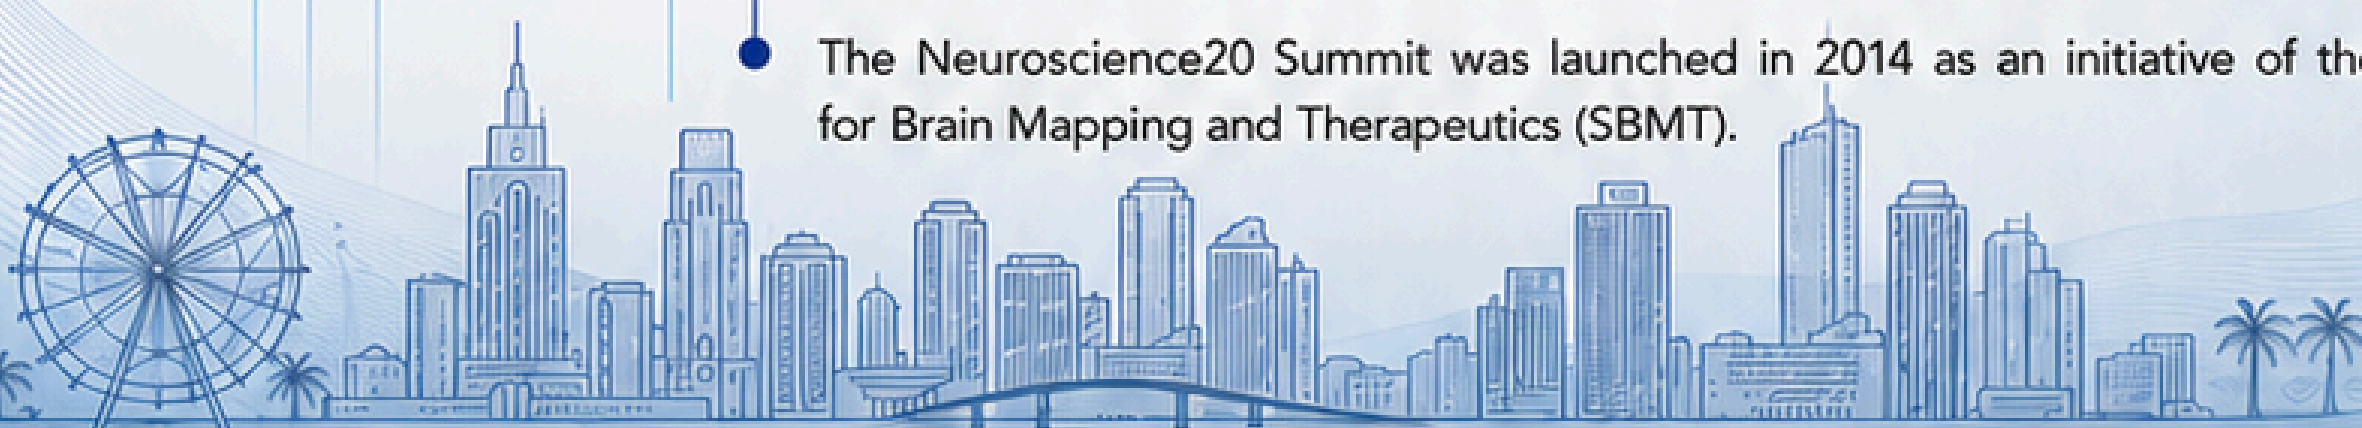

- The Society for Brain Mapping and Therapeutics (SBMT) is a non-profit organization dedicated to advancing innovation in brain mapping, engineering, stem cell research, nanotechnology, imaging, and medical devices to improve the diagnosis, treatment, and rehabilitation of patients affected by neurological disorders.
- The Society promotes public welfare and enhances patient care by accelerating the translation of breakthrough technologies and therapies into life-saving diagnostic and therapeutic solutions.
- SBMT is committed to excellence in education, scientific discovery, and multidisciplinary collaboration. The Society fulfills its mission through strategic partnerships with government agencies, patient advocacy groups, academic institutions, industry leaders, and philanthropic organizations.

ABOUT N20

Neuroscience20 Summit

- Neuroscience20 (N20) aims to contribute to President Biden's Mental Health initiatives and President Obama's BRAIN Initiative by expanding collaboration and action across G20 nations.
- The summit brings together leading policymakers, scientists, engineers, investors, physicians, surgeons, universities, and globally recognized research institutions to accelerate the development and implementation of clinical solutions for neurological disorders—conditions that cost the global economy hundreds of billions of dollars annually.
- The Neuroscience20 Summit was launched in 2014 as an initiative of the Society for Brain Mapping and Therapeutics (SBMT).

13TH ANNUAL N20 SUMMIT

NEUROSCIENCE 20

[BRAIN, SPINE AND MENTAL HEALTH]

13TH ANNUAL NEUROSCIENCE20 SUMMIT

The 13th Annual Neuroscience20 Summit will include topics on brainmapping and therapeutics, neurotechnology innovation, investments, promote policies in neuropsychiatric disorders, PTSD, artificial intelligence, mental health disorders, neurosurgery (vascular), neuro-imaging, neuroncology, opioid addiction (pandemic), suicide prevention, epilepsy, spine, neuro-related infections, regulatory issues, neurodegenerative (MS, ALS, Parkinson's), TBI and spinal cord injuries.

SBMT GLOBAL LEADERSHIP

SBMT has been at the forefront of establishing Global Brain Initiatives in the last **24 years**—driving collaboration, innovation, and the translation of breakthroughs into real-world impact for patients worldwide.
